Exhibitor Prospectus

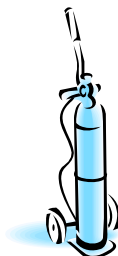

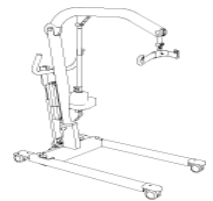

Dear Colleagues,

NAHTM invites you to share your products and services at the 20th Annual NAHTM Conference. The Exhibits will run from Tuesday, September 14 through Wednesday, September 15, 2010. NAHTM members recognize the importance of the support we receive from our exhibitors. We recognize the value they add to the transport department in its effort to make the patient experience, in the hands of a competent Patient Transporter, a positive experience.

This year's theme, *RACE TO SUCCESS*, stresses the importance of enhancing skills of both the Patient Transporter and the Patient Transport Manager. However, no matter how skilled staff may be, the patient experience suffers if equipment is not up to par. The positive patient experience is enhanced by the competent use of a safe and comfortable lift device and a smooth ride on well-constructed, clean transport vehicles. The transport experience is made safer through the use of user-friendly ancillary equipment. The Patient Transporter is able to respond to each job assignment in a timely manner with the assistance of dispatch software. In short, excellent skills, plus excellent, state-of-the art equipment create a positive patient experience.

PATIENT TRANSPORT MANAGERS ARE INTERESTED IN:

- ✧ Lift /lateral transfer devices
- ✧ Wheelchairs and Stretchers, Tracking System for equipment
- ✧ Material distribution equipment: general purpose carts, E Cylinder carts, etc.
- ✧ Equipment cleaning systems/services
- ✧ Computer Assisted Dispatch Systems
- ✧ Instant voice or text messaging communication systems
- ✧ Ancillary mobile or attachable equipment such as IV poles, O2 tank holders.
